

GutterMelt Plug In Cord Sets

DATA SHEET

Description:

10 Amp, 120VAC Plug in Cord Set with GFCI

- Includes one (1) 1200 Watt three (3) foot cord.
- Will work with up to 75 feet of 12W 120VAC GutterMelt® cable, or 100 feet of 9W 120VAC GutterMelt® cable.
- Contains GFCI with 27mA test and reset.
- Power "ON" indicator light.

15 Amp, 120VAC Plug in Cord Set Kit with GFCI

- Used to terminate one GutterMelt® cable
- Includes one (1) connection assembly, one (1) end seal assembly, and 2400 Watt eight (8) foot cord
- Will work with up to 115 feet of 12W 120VAC, 150 feet of 9W 120VAC, or 300 feet 5W 120VAC GutterMelt® SR Cable
- Contains GFCI with 30mA test and reset
- Power "ON" indicator light
- Requires NEMA5 20 Amp Outlet Receptacle

20 Amp, 120VAC Plug in Cord Set Kit with GFCI

- Includes one (1) 2400 Watt eight (8) foot cord.
- Will work with up to 150 feet of 12W 120VAC GutterMelt® cable, or 200 feet of 9W 120VAC GutterMelt® cable.
- Contains GFCI with 27mA test and reset
- Power "ON" indicator light.
- Requires NEMA5 20 Amp Outlet Receptacle

20 Amp, 240VAC Plug in Cord Set with GFCI

- Includes one (1) 4800 Watt eight (8) foot cord.
- Will work with up to 175 feet of 12W 240VAC GutterMelt® cable, or 233 feet of 9W 240VAC GutterMelt® cable.
- Contains GFCI with 27mA test and reset.
- Power "ON" indicator light.
- Requires NEMA6 20 Amp Outlet Receptacle.

15 Amp, 120VAC Plug in Pig Tail Set (no GFCI)

- Used to terminate one GutterMelt® cable Includes one (1) connection assembly, one (1) end seal assembly, and eight (8) foot cord.
- Will work with up to 115 feet of 12W 120VAC GutterMelt® cable, or 150 feet of 9W 120VAC GutterMelt® cable.
- Standard Nema5 plug on one end, stripped wires on other end.

Application:

Used to terminate one GutterMelt® cable. Each Cord Set includes one (1) connection assembly, one (1) end seal assembly, GutterMelt® is a Roof deicing, Ice dam prevention, and gutter melting cable designed to enable water to flow more freely in freezing temperatures.

Design:

10amp/15amp 120v Cord Set

20amp 120v/240v Cord Set

15amp 120v Pig Tail

Note: Ground fault protection must be used when installing all GutterMelt® SR products. Refer to the NEC or CEC for specific requirements.
